

## [The Improvement of Esfahan's Business Environment Index summer 2019](#)

the provincial business Environment index has been improved in summer 2019 from 6.47 to 6.10

M. Golshirazi, President of Esfahan Chamber of Commerce, Industries, Mines and Agriculture, announced that, the provincial business Environment index has been improved in summer 2019, and called upon the need for a greater engagement and cooperation of the executive agencies of the province to reduce unemployment rate and create economic prosperity. He added: "Fortunately, in the spring and summer, the province's business environment index improved slightly, from 6.47 in 2018 to 6.33 and 6.10 in spring and summer 2019 respectively."

He further pointed out the significant effect of business environment on the volume of investment, production, employment and macroeconomic indicators of the province and country.

President of ECCIMA declared that improvement of business environments of the province and contribution to economic activists for solving problems is our priority in Esfahan Chamber of Commerce.
